

## Technical Memorandum

**Date:** June 14, 2010

**RE:** TimberSaver® PT – VOC content

**To whom it may concern**

TimberSaverPT is a water-borne wood preservative formulation that contains disodium octaborate. TimberSaver PT may be used to pressure treat lumber and plywood. TimberSaver PT does not contain any volatile organic compounds.

A handwritten signature in black ink, appearing to read "KJ Archer", with a long horizontal flourish extending to the right.
